

# CONTAINED STRUCTURES

## About Rhinoplay

Rhinoplay is made up of a dedicated team of design professionals who love creating interesting and innovative play spaces. We specialise in playground solutions for clients such as Quick Service Restaurants, Clubs and Hotels, Local Government & Family Entertainment Centres among others.

## Our Clients

Rhinoplay is an approved supplier to many large corporations in Australia who expect nothing but the best. To gain such approvals, Rhinoplay has had to demonstrate industry best practice year in, year out. All of our clients whether they be large or small benefit from the results of this rigorous scrutiny. Many have tried but very few have achieved such recognition. We are proud of our achievements.

## Point of Difference

In the play industry the temptation to provide for the customer, and almost ignore the needs of the end user, children, is a constant. Attracting children to a play structure is one thing. Delivering a fun yet safe experience is totally different. At Rhinoplay we strive to create the most amazing play structures possible yet we never compromise on safety. Never.

## Safety

The amount of misinformation in the play industry is quite astounding given the seriousness of the implications. It is all too easy to say a play structure is safe but what lies beyond these words? Our design team includes members with over 20 years of playground design experience, international playground designers dedicated to creating safe and fun playgrounds. We test our products in Australia to Australian Standards and we can supply the test results. We certify everything we do and our clients appreciate the peace of mind this creates.

## Quality

A simple yet ambiguous word that is often preached by the masses but delivered by the few. Our clients are not distracted by the old argument of where a product is or isn't made. Quality has nothing to do with origin and everything to do with standing by your products. Interestingly, it all boils down to one simple thing. Warranty.

## Warranty

Rhinoplay selects the best materials and products for the job. Our products will stand the test of time and kids. Rhinoplay provides an industry leading, fully transparent warranty and we stick by it.

## COMMERCIAL PLAYGROUNDS

Rhinoplay playgrounds are safe, innovative and exciting spaces that will appeal to children and parents alike. Used extensively throughout the hospitality industry, Rhinoplay's commercial playgrounds add visual excitement to your venue and act's like a beacon to children and their parents.

Our commercial play structures are perfect to attract families to your venue and keep them coming back. A variety of fun features keep children of all ages entertained while ensuring that parents can still communicate with and supervise their children.

### Perfect For Any Business

Commercial playground structures are suitable for any business and any location. Our playgrounds feature extensively at fast food outlets, hotels and clubs, shopping centres and many other venues. Our structures can be custom designed to suit any space or budget, plus our experienced designers can create custom themed playgrounds to compliment your brand. The choices are only limited by your imagination.

### Engineered To Last

Our contained play structures are second to none when it comes to quality, reliability and safety. Designed and made in Australia to comply with all relevant Australian Standards, our products will provide many years of reliable service. A well designed play structure can significantly increase revenue for your venue over the life of the equipment making a play structure one of the best investments your business could make.

### Where Fun Meets Innovation

"Making a sound investment decision over the myriad of playground products in Australia is no easy task. You need to weigh up safety, durability, customer service and, not forgetting the end user, fun! At Rhinoplay, we take care of all of that so you have the best solution for your needs."

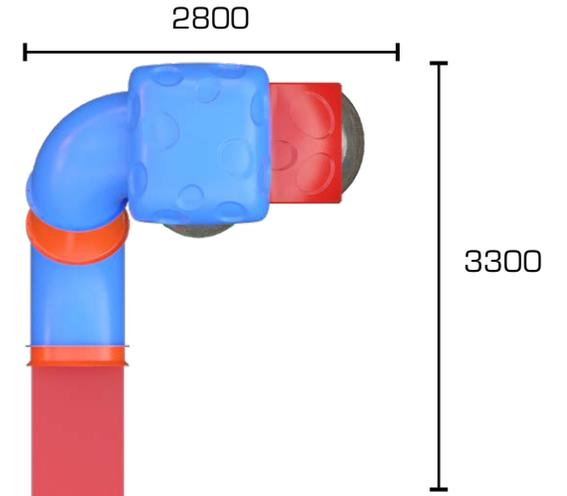

## MODEL NUMBER - 002

Age Range: 3 -12    Fall Height: 1m    Required Space: 10sqm

## WARRANTY AND AUSTRALIAN STANDARDS

Rhinoplay commits to always adhering to the relevant Australian & New Zealand Standards. We ensure our knowledge is up to date and continuously follow amendments and new releases. For peace of mind we offer our comprehensive warranty to all clients as well as liability insurance cover.

### STANDARDS COMPLIANCE

Rhinoplay play structures have been designed and installed to conform, where applicable, to the following Australian and New Zealand Standards:

#### **AS 4685.1: 2014.**

Playground equipment.  
Part 1: General safety requirements and test methods.

#### **AS/NZS 4486.1: 1997**

Playgrounds and playground equipment.  
Part 1: Development, installation, inspection, maintenance and operation.

#### **AS/NZS 3533.4.2: 2013.**

Amusement Rides & Devices  
Part 4.2: Specific requirements – Contained Play Facilities.

## WARRANTY

Rhinoplay play equipment is built to last for many years using quality materials and production techniques. Our products are supported by our warranty so that customers can purchase with confidence knowing their investment in quality will deliver value year after year.

### 3-YEAR WARRANTY

All products supplied and installed by Rhinoplay.

## EXCLUSION

Cosmetic issues such as fading, crazing, discolouration.  
Defects caused by lack of maintenance such as missed scheduled maintenance.  
Continued use of products after suspecting or discovering a defect.  
Vandalism, negligence, abuse, accidents, improper use, improper installation by others, normal wear and tear.  
Products being tampered with or altered, modified or repaired by anyone other than Rhinoplay.  
Defects caused by the dismantling and relocation of equipment from its original site.

Products installed within 200m of water receive half the standard warranty and are not covered for corrosion.

The warranty is only valid if products have been installed according to instructions provided by Rhinoplay and maintained in accordance with Australian Standards AS/NZS 4486.1 1997

## TESTIMONIALS

Rhinoplay has designed hundreds of playgrounds including collaborations with established business partners. Our extensive list of clients includes international giants, as well as local industry-leading organisations across a variety of sectors. This is what our clients say about our work.

To Whom it may concern:

I would just like to extend a very big personal thank you to you and your team at Rhinoplay for all the work you put in to get our centre up and running. Rhinoplay went above and beyond what was expected. I knew every step of the way where we were at with the equipment from the design stage through to shipment and installation. As you can remember I had an extremely tight time frame to get the equipment installed, Rhinoplay worked day and night to achieve this. The personalized and professional service that you provide is second to none, nothing is ever too hard and the after sales service is phenomenal.

I have no hesitation in recommending Rhinoplay to any prospective play centre owner as I know and have experienced the Rhinoplay way.

Danijela Vrkic  
Director  
Kidz HQ

"Recently, I have used Rhinoplay to install new playlands in two of the restaurants I am responsible for. During the design stage Rhinoplay was very accommodating to the needs and requirements of the business. Ryan and his team helped create playlands that look unique and fun. Overall, the playlands look great, work well and continue to receive good feedback from our customers."

Elder Ornelas  
Operations Consultant  
McDonalds - Wollongong Region

## DOCUMENTATION

Rhinoplay provides every customer with comprehensive information including equipment care, safety and spare parts details. We also produce exclusive handover documents, and our clients appreciate the peace of mind this creates.

### Spare Parts Catalogue

Rhinoplay's spare parts catalogue features valuable information such as product images, detailed dimensions and pricing. We strive to make ordering quick and easy.

### Equipment Manual

Rhinoplay's equipment manual provides full guidelines for operating and looking after the play equipment. It also includes routine inspection forms and cleaning instructions.

### Safe Work Method Statements (SWMS)

Rhinoplay's installers and supervisors adhere to the SWMS at all times. This document includes checklists such as personal protective equipment, as well as qualifications and licencing reports.

### Handover Documents

Rhinoplay organises a formal handover for every playground project to ensure the highest standards of quality and delivery are met.
