

# ROCKET

## About Rhinoplay

Rhinoplay is made up of a dedicated team of design professionals who love creating interesting and innovative play spaces. We specialise in playground solutions for clients such as Quick Service Restaurants, Clubs and Hotels, Local Government & Family Entertainment Centres among others.

## Our Clients

Rhinoplay is an approved supplier to many large corporations in Australia who expect nothing but the best. To gain such approvals, Rhinoplay has had to demonstrate industry best practice year in, year out. All of our clients whether they be large or small benefit from the results of this rigorous scrutiny. Many have tried but very few have achieved such recognition. We are proud of our achievements.

## Point of Difference

In the play industry the temptation to provide for the customer, and almost ignore the needs of the end user, children, is a constant. Attracting children to a play structure is one thing. Delivering a fun yet safe experience is totally different. At Rhinoplay we strive to create the most amazing play structures possible yet we never compromise on safety. Never.

## Safety

The amount of misinformation in the play industry is quite astounding given the seriousness of the implications. It is all too easy to say a play structure is safe but what lies beyond these words? Our design team includes members with over 20 years of playground design experience, international playground designers dedicated to creating safe and fun playgrounds. We test our products in Australia to Australian Standards and we can supply the test results. We certify everything we do and our clients appreciate the peace of mind this creates.

## Quality

A simple yet ambiguous word that is often preached by the masses but delivered by the few. Our clients are not distracted by the old argument of where a product is or isn't made. Quality has nothing to do with origin and everything to do with standing by your products. Interestingly, it all boils down to one simple thing. Warranty.

## Warranty

Rhinoplay selects the best materials and products for the job. Our products will stand the test of time and kids. Rhinoplay provides an industry leading, fully transparent warranty and we stick by it.

## THE ROCKET

Bring the thrill of outer space to your venue with Rhinoplay's Rocket playground. Childrens' imaginations will run wild as they fly to space, navigate using the mission control panel and play within the different levels of the rocket.

### PACKED FULL OF FUN

The Rocket includes low-level activity panels for toddlers and climbing challenges, slides and a pilot's cockpit for older children. Packed full of fun activities for children of all ages, the Rocket is an eye-catching, innovative design that will keep families coming back to your venue.

## PERFECT FOR ANY SITUATION

With the Rocket, Rhinoplay has created a modern statement piece to generate maximum impact for your business. Whether your space is small or large, simple or complex, our designers will create a tailored solution suitable for your location and budget. Custom branded inlays will add your own unique details and an LED lighting option means your Rocket is highly-visible both day and night.

## VISUAL IMPACT

No other playground in the world will attract families like Rocket. With the tallest option standing at nearly 9 metres tall, the Rocket will draw people in from miles around.

## LOW MAINTENANCE

Rocket is manufactured from incredibly robust materials to ensure many years of trouble free use.

Metal components are treated to withstand anything the harsh Australian climate can throw at them, while all plastics parts are produced from high quality, UV-stable polymers.

## SALES IMPACT

Rocket playgrounds have been shown to provide a very positive return on investment. Businesses benefit from the increased family patronage created by our unique products, resulting in a "Profit for Play".

## SAFETY

Rocket has been designed to meet & exceed all relevant Australian & New Zealand standards for playground equipment.

## EXAMPLES

Rocket can be configured to suit any site & budget.

## EXAMPLE 1 - 3 LEVEL ROCKET

**APPROX. FOOTPRINT REQUIRED:**  
**4700mm x 5150mm**

**HEIGHT: 8700mm above FFL**

### **FEATURES:**

- Giant Spiral Slide
- Pilot's Cockpit
- Ground Level Deck Climber
- Toddler Activity Panel x1
- Potential Activity Mounts x5

## EXAMPLE 2 – 3 LEVEL ROCKET

**APPROX. FOOTPRINT REQUIRED:**  
**6000mm x 5500mm**

**HEIGHT: 8700mm above FFL**

### **FEATURES:**

- Giant Sweeping/Spiral Slide
- 1st Level Sweeping Slide
- Pilot's Cockpit
- Staircase
- Toddler Activity Panel x2
- Potential Activity Mounts x2

## EXAMPLE 3 – 3 LEVEL ROCKET

**APPROX. FOOTPRINT REQUIRED:**  
**7500mm x 3900mm**

**HEIGHT: 8700mm above FFL**

### **FEATURES:**

- Giant Spiral Slide
- 2nd Level Sweeping Slide
- 1st Level Sweeping Slide
- Pilot's Cockpit
- Ground Level Deck Climber
- Toddler Activity Panel x1
- Potential Activity Mounts x2

## EXAMPLE 4 – 2 LEVEL ROCKET

**APPROX. FOOTPRINT REQUIRED:**  
**7550mm x 4200mm**

**HEIGHT: 6900mm above FFL**

### **FEATURES:**

- 2nd Level Spiral Slide
- Pilot's Cockpit
- Staircase
- Toddler Activity Panel x3
- Potential Activity Mounts x2

## EXAMPLE 5 – 2 LEVEL ROCKET

**APPROX. FOOTPRINT REQUIRED:**  
9300mm x 6200mm

**HEIGHT: 6900mm above FFL**

### **FEATURES:**

- 2nd Level Sweeping Slide
- 1st Level Sweeping Slide
- Pilot's Cockpit
- Staircase
- Toddler Activity Panel x3
- Potential Activity Mounts x1

## PALETTES

Rocket can be styled to accommodate your venue's decor, themed to suit a business' brand or tailored to any particular niche desired.

**BLUE/SILVER**

**RED/SILVER**

**RAINBOW**

**RED/YELLOW**

**ORANGE/CHARCOAL**

**BLUE/GREEN**

## ACTIVITIES

Rocket is packed full of play value and comes with an extensive range of unique play options.

## CLIMBERS

### DECK AND CABLE CLIMBER

The rocket's internal climbers feature alternating decks which make it easy for children & adults alike to safely access the different levels, while combining modern play elements such as cable for assisted climbing.

### GROUND LEVEL DECK CLIMBER

For sites with limited available space, the ground level deck climber allows children to safely enter and exit the rocket, without the larger softfall requirements of the stairs.

### STAIRCASE

Easy access for children & adults alike to the first level of the rocket.

### COCKPIT OPTIONS

#### JUMBO

Kids can soar through the sky in the Jumbo. Moulded cockpit seats allow children to play as pilots & cabin crew, flying their way through the clouds.

#### HELICOPTER

High-flying fun for kids of all ages, the helicopter allows children to role play. The cockpit features 2 moulded seats for both pilot & co-pilot.

## ACTIVITY PANELS

### ACTIVITY MOUNTS

The rocket features several mounting points for activities & slides.

The activities below can be added to any rocket design with a free mount & internal deck.

### TRANSITION SPINNER

Create eye-catching movement & activity with an integrated spinner.

### PLANETARY GEARS PANEL

The planetary gears panel demonstrates to children simple gear mechanics, for all those budding engineers.

### SPACE SPINNER

Kids can blast into orbit with the Space Spinner.

### STAR SPINNER

Soar through the galaxy with the Star Spinner.

### PILOT'S COCKPIT

Budding astronauts can fly the rocket through space with an interactive cockpit. Dials, wheels & spinners can be used to plot the course, power the rocket & encourage children to role play.

## TODDLER ACTIVITY PANELS

### MISSION CONTROL PANEL

Easily accessible for toddlers, the mission control panel features tactile dials and spinners to develop fine motor skills & encourage role play.

### MIX 'N' MATCH PANEL

The mix 'n' match panel features a range of space themed characters, from aliens to astronauts to engineers & scientists. Dozens of character combos can be created to keep toddlers entertained.

### MIRROR PANEL

The mirror panel features astronaut & alien characters, encouraging toddler role play with inquisitive cause & effect.

## SLIDES

### SPIRAL SLIDES

Available in a range of sizes & variations. Transparent tubes can be added to allow children to be seen while sliding.

### SWEEEPING SLIDES

Available in a range of sizes & variations. Transparent tubes can be added to sweeping slides, allowing children to be seen while sliding.

### STOP PANEL

Fixed to the ends of slides & integrated into fencing, stop panels are a strong anti-climb deterrent.

### TRANSPARENT TUBES

Transparent tubes available in half & full tube options.

### MOULDED TUBE INLAYS

Bright, bold & modern, moulded tube inlays enhance your cube's palette, appearance & curb appeal.

## ROCKET LIGHTING PACKAGE

A lighting package will ensure that your rocket is seen for miles not just during the day, but also at night.

The lighting package includes a strong white LED to light the cone at night, as well as remote controlled RGB (Red-Green-Blue) strips along the vertices of the rocket. The RGB strip lighting can be set to any desired colour or to alternatively randomly change.

## AUSTRALIAN STANDARDS

Rocket has been designed to conform, where applicable, to the following Australian and New Zealand Standards:

**AS 3533.4.2 - 2013**  
Amusement Rides & Devices  
Part 4.2: Specific requirements – Contained Play Facilities

**AS 4685 - 2014**  
Playground equipment and surfacing  
Part 1: General safety requirements and test methods

**AS 4685 - 2014**  
Playground equipment and surfacing  
Part 3: Additional specific safety requirements & test methods for slides

## TESTIMONIAL

"To whom it may concern,

I am writing to share my experiences with Rhinoplay in my restaurants. Ryan Gillatt and I have worked closely together over the past 15 years in building bigger and better playlands. Ryan has provided outstanding services to ensure we have the best outcomes for my business.

Ryan has always been honest and transparent in offering great playlands to give me the best return on investment in maximising sales.

My dealings with Rhinoplay have all been positive as they provide great products and fantastic service. Ryan has personally come to visit me in both my restaurants pre work and post work to follow up on installation and answer any questions or enquiries I might have and fix any defects I might have.

In the past 12 months I have installed a giant duel Rocket and cube in my Mount Druitt restaurant in September 2016 and a huge 6 level Cube in my Plumpton restaurant July 2017. With the installation at the Mount Druitt restaurant, sales have increased significantly with front counter sales comping over 15%.

In both my restaurants the customer feedback has been overwhelming with so many complements in the look and size of the playlands and it's like coming to lollipop land without paying the entry fee.

I will continue to use Rhinoplay in the future and I highly recommend any Licensee or McCopco restaurants to use them."

Paul Salamakis  
McDonalds Mt Druitt

The background of the image shows a large, modern playground structure with various colored slides (orange, red, green, blue) and climbing frames. The sky is filled with scattered clouds.
